Chemical engineering, biotechnology and bioprocessing are the key to providing innovative solutions for food supply, mobility, energy, health and well-being while striving for a sustainable economy. At **ECCE 15 & ECAB 8**, scientists from industry, universities and research institutions from Europe and beyond will meet in Lisbon to discuss the latest research and industrial applications in all fields of chemistry, process engineering, biotechnology and related fields. ECCE & ECAB 2025 will be accompanied by **CIBIQ 2025 – 3rd Iberoamerican Congress of Chemical Engineering**.

WHY EXHIBIT AT ECCE 15 & ECAB 8?

- » The **highlight event** for the European chemical engineering and biotechnology community
- » Cross-linking disciplines and organisations to span the bridge from R&D to the industrial practice
- » **High-profile** international keynote and plenary speakers
- » Large industry exhibition and **plenty of networking opportunities**
- » Present your latest products, services and innovations to **key decision makers** from academia and industry
- » Meet **academic and industrial experts** in the field of chemistry, process engineering, biotechnology and related fields
- » The **city of Lisbon** in the south of Europe offers an ideal environment and location for acquiring new customers
